

ANNUAL OB-GYN ULTRASOUND COURSE

Presented by

Baylor College of Medicine Department of Obstetrics & Gynecology
in collaboration with AIUM

REFRESHER: Ultrasound imaging of the female pelvis: From basic concepts to improving pregnancy outcomes

GYN TOPICS: FRIDAY, NOVEMBER 3, 2023 • 1PM TO 5:45PM CENTRAL

OB TOPICS: SATURDAY, NOVEMBER 4, 2023 • 8:30AM TO 1PM CENTRAL

Register at cpd.education.bcm.edu/content/obgyn-ultrasound-course-fall-2023

Attendees will have exposure to lectures explaining basic concepts and advanced techniques to explore gynecologic and obstetric physiology and pathology.

COURSE DIRECTORS

Laura Detti, MD, FAIUM

Professor and Director
Division of Reproductive Endocrinology and Infertility
Department of Obstetrics and Gynecology
Baylor College of Medicine

Joan Mastrobattista, MD, FAIUM

Professor
Division of Maternal Fetal Medicine
Department of Obstetrics and Gynecology
Baylor College of Medicine

LOCATION

Hybrid In-Person Virtual Course
In person (Limited seating)

Texas Children's Hospital - Abercrombie Building, Auditorium B1- Room AB120.01, 6621 Fannin Street, Houston, Texas 77030

CME Credits

ACCREDITATION/CREDIT STATEMENT

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 7.75 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

NEEDS STATEMENT

This activity represents an ultrasound course organized at Baylor College of Medicine and Texas Children's Hospital. The course is intended for providing CME to Sonographers, Attending Physicians, Residents, Fellows, Nurses, Nurse Practitioners, and all medical personnel who perform OB/GYN ultrasound activities. During this activity, the attendees will have exposure to lectures explaining basic concepts and advanced techniques that explore gynecologic and obstetric physiology and pathology.

TARGET AUDIENCE

Sonographers, Attending Physicians, Residents, Fellows, Nurses, Nurse Practitioners

EDUCATIONAL METHODS

Lecture, Panel Discussion, Case Study

LEARNING OBJECTIVES

At the conclusion of the conference, participants should be able to:

- Appraise the use of ultrasound to evaluate endometrium, myometrium, and the tubes
- Outline how to use 2D/3D/4D ultrasound to diagnose congenital uterine anomalies, endomyometrial pathologies, and adenomyosis
- Demonstrate 2D/3D/4D ultrasound techniques to diagnose physiology and pathology of the embryo and the fetus
- Determine an effective and confident obstetric ultrasound
